No. 1—AUGUST 1953

Page

Endomitotic reduplication mechanisms in ascites tumors of the mouse. ALBERT LEVAN and THEODORE S. HAUSCHKA. [Plate 1] 1

Biological studies on stable and radioactive rare earth compounds. II. The effect of lanthanum on mice bearing Ehrlich ascites tumor. RUTH LEWIN, KURT G. STERN, DANIEL M. EKSTEIN, LEONARD WOIDOWSKY, and DANIEL LASZLO 45

Nutritional deficiency produced in the mouse by feeding bentonite. J. WALTER WILSON 57

Hepatomas in mice on a diet containing bentonite. J. WALTER WILSON. [Plates 2, 3] 65

Induction of ovarian neoplasms following intrasplenic transplantation of ovarian grafts to old castrated mice. MICHAEL KLEIN 77

Influence of continued and intermittent painting with croton oil on skin tumorigenesis in mice. MICHAEL KLEIN. [Plate 4] 83

A comparison of the recovery of isotopic and of diazotizable nitrogen following gastric intubation of 2-acetylaminofluorene-N^{15} to rats. HELEN M. DYER, CHARLOTTE M. DAMRON, and HAROLD P. MORRIS 93

Tumors of the glandular stomach induced in mice of six strains by intramural injection of 20-methylcholanthrene. HAROLD L. STEWART, WILLIAM V. HARE, and JAMES G. BENNETT. [Plates 5–10] 105

Occurrence of pulmonary tumors in mice of strains A, BL, and SWR and their F_1 hybrids following intravenous injection of 1,2,5,6-dibenzanthracene. MARGARET K. DERINGER and W. E. HESTON 127

Occurrence of tumors in mice injected subcutaneously with sulfur mustard and nitrogen mustard. W. E. HESTON 131

An instrument for gastric biopsy of the rhesus monkey. KAI SETÄLÄ, PENTTI ERMALA, and MAX SIURALA. [Plates 11, 12] 141

Neoplasms in rats exposed to single-dose total-body X radiation. JOHN C. FINERTY, ROBERT T. BINHAMMER, MARTIN SCHNEIDER, and A. W. B. CUNNINGHAM. [Plates 13, 14] 149

Neoplasms in rats protected against lethal doses of irradiation by parabiosis or *para*-aminopropriophenone. G. BRECHER, E. P. CRONKITE, and JAMES H. PEERS. [Plates 15–18] 159

Enzyme changes induced in normal and malignant tissues with chemical agents. II. Effect of various compounds on the cytochrome oxidase activity of transplanted tumors. J. LEITER, A. D. PARADIS, and V. S. WARAVDEKAR 177

The effect of ultracentrifugation and hyaluronidase on the filtrability of chick-embryo extract for tissue culture. JAY C. BRYANT, WILTON R. EARLE, and ELLISON V. PEPPERS. [Plates 19, 20] 189

Announcements:

Establishment of "Transplantation Bulletin" 227

Applications for Grants in Cancer Research 228

No. 2—OCTOBER 1953

Quantitative studies on the multiplication of neoplastic cells *in vivo*. I. Growth curves of the Ehrlich and MC1M ascites tumors. GEORGE KLEIN and LÁSZLÓ RÉVÉSZ. [Plates 21–23] 229

A method for the quantitative spectrophotometric measurement of 7-hydroxy-2-acetylaminofluorene. CHARLOTTE M. DAMRON and HELEN M. DYER 279

Page

Prevention of irradiation-induced lymphoid tumors in C57BL mice by spleen protection. Egon Lorenz, Charles C. Congdon, and Delta Uphoff. [Plate 24] ... 291

Influence of bone-marrow injections on involution and neoplasia of mouse thymus after systemic irradiation. Henry S. Kaplan, Mary B. Brown, and Janice Paull ... 303

Influences of heredity and the mammary tumor agent on the occurrence of mammary tumors in hybrid mice. Howard B. Andervont and Thelma B. Dunn ... 317

Responses of strain $DBA_1/2$ mice, without the mammary tumor agent, to oral administration of methylcholanthrene. Howard B. Andervont and Thelma B. Dunn. [Plates 25, 26] ... 329

Sulfhydryl groups in the skin of the mouse and guinea pig. Arthur Z. Eisen, William Montagna, and Herman B. Chase. [Plates 27–29] ... 341

The nature and staining reactions of the fibroma-cell inclusions of the Shope fibroma of the rabbit. Edwin R. Fisher. [Plate 30] ... 355

Damage induced in Sarcoma 37 with chemical agents. VI. Biphenyl, fluorene, phenanthrene, and tropolone derivatives. J. Leiter, J. L. Hartwell, J. S. Kahler, I. Kline, and M. J. Shear ... 365

Spontaneous and induced tumors in strain ST mice. Margaret K. Deringer, W. E. Heston, and Morris K. Barrett ... 375

Induced adaptation in a tumor: specificity of the change. Morris K. Barrett, Margaret K. Deringer, and Walter H. Hansen ... 381

Complement fixation in animal neoplasia. VI. Development of the reaction in various breeds of rabbits carrying the Brown-Pearce carcinoma. Stuart W. Lippincott, Helen Thornton, Lester D. Ellerbrook, Mark C. Rhees, Conrad T. O. Fong, and Helen M. Duncan ... 395

Studies of the carcinogenic effect of urethan on transplanted lung tissue in strain A mice. R. A. Malmgren and E. A. Saxén. [Plates 31, 32] ... 411

Leukoedema and keratosis in relation to leukoplakia of the buccal mucosa in man. Harold R. Sandstead and Jere W. Lowe. [Plates 33, 34] ... 423

The concentration of myelokentric and lymphokentric acids from serum and plasma of leukemic patients. D. L. Turner, F. R. Miller, and J. S. Flint ... 439

Growth and survival of Sarcoma 37 in various mouse stocks. J. Leiter and I. Kline ... 449

Announcements:

New *Excerpta Medica* Section on Cancer ... 455

Grants for Scholars in Cancer Research ... 455

Medical Research Fellowships ... 456

No. 3—DECEMBER 1953

Analysis of the histocompatibility-2 locus in the mouse. G. D. Snell, Priscilla Smith, and F. Gabrielson ... 457

Determination of the histocompatibility locus involved in the resistance of mice of strains C57BL/10-*x*, C57BL/6-*x*, and C57BL/6Ks to C57BL tumors. G. D. Snell and P. R. F. Borges ... 481

Resistance of various inbred strains of mice to tumor homoiotransplants, and its relation to the *H-2* allele which each carries. G. D. Snell, Elizabeth Russell, Elizabeth Fekete, and Priscilla Smith ... 485

Influence of gonadotrophin on pyridoxine-deficient and diet-restricted female mice. Harold P. Morris, Thelma B. Dunn, and Billie P. Wagner. [Plates 35–37] ... 493

The effects of amino acids as supplements to fractions of serum and embryo extract on the proliferation of cells *in vitro*. Katherine K. Sanford, Patricia A. Leadbetter, Jay C. Bryant, William P. Braker, Virginia J. Evans, and Wilton R. Earle ... 513

Utilization of amino acids, peptides, and protein by cultures of embryonic heart. Ruth E. Winnick and Theodore Winnick 519
Effects of ionizing irradiation treatments on tumor regression. Joanne W. Hollcroft and Marion Matthews 527
Mobile resistance factor in acquired immunity to homologous tissue transplantation. Richmond T. Prehn and Joan M. Main 537
On the factor of age in the production of subcutaneous sarcomas in mice by 20-methylcholanthrene. Erkki A. Saxén. [Plates 38–43] 547
Induction of liver tumors in rats fed *p*-dimethylaminobenzene-1-azo-2-naphthalene. Ambadas S. Mulay and Charles C. Congdon. [Plates 44–46] ... 571
Enzyme changes induced in normal and malignant tissues with chemical agents. III. Effect of acetylpodophyllotoxin-ω-pyridinium chloride on cytochrome oxidase, cytochrome c, succinoxidase, succinic dehydrogenase, and respiration of Sarcoma 37. V. S. Waravdekar, Anita D. Paradis, and J. Leiter. 585
Radioiodide-concentrating ability of transplantable tumors of the thyroid gland in C3H mice. S. H. Wollman, R. O. Scow, and H. P. Morris. [Plate 47]. 593
Tumor-damaging capacity of plant materials. V. Miscellaneous plants. Morris Belkin and Dorothea B. Fitzgerald 607
Effect of Mengo encephalitis virus on the Ehrlich ascites tumor of the mouse. Irena Koprowska and Hilary Koprowski. [Plate 48] 627
Damage induced in Sarcoma 37 with chemical agents. VII. Diphenylpropylamines, diphenylpropylenediamines, diphenylalkanes, and related compounds. J. Leiter, J. L. Hartwell, I. Kline, and M. J. Shear 645
The glycogen content of cell suspensions prepared from massive tissue culture: comparison of cells derived from mouse connective tissue and mouse liver. Benton B. Westfall, Virginia J. Evans, John E. Shannon, Jr., and Wilton R. Earle 655
Proceedings of the Tissue Transplantation Conference 665
The homologous transplantation of tissues: clinical aspects. W. P. Longmire, Jr 669
The genetics of transplantation. George D. Snell 691
Acquired immunity to the graft. E. J. Eichwald 705
Methods of conditioning the graft in tumor transplantation. Theodore S. Hauschka. [Plate 49] 723
Conditioning of the host. Helene Wallace Toolan. [Plates 50, 51] 745

No. 4—FEBRUARY 1954

Histochemical demonstration of sulfhydryl and disulfide groups of protein. Russell J. Barrnett and Arnold M. Seligman. [Plates 52–56] 769
Effect of adrenalectomy and of desoxycorticosterone acetate on the formation of liver lesions in rats fed *p*-dimethylaminoazobenzene. Alexander Symeonidis, Ambadas S. Mulay, and Frederick H. Burgoyne. [Plates 57, 58]. 805
Fate of vascularized and nonvascularized subcutaneous homografts in mice. Ruth M. Merwin and Elizabeth L. Hill. [Plates 59–62] 819
Culture flasks for use with plane surface substrate tissue cultures. Wilton R. Earle and Frederick Highhouse. [Plate 63] 841
Influence of tube rotation velocity on proliferation of strain L cells in surface substrate roller-tube cultures. Wilton R. Earle, Edward L. Schilling, and Jay C. Bryant 853
Determination of peripheral blood pressure in unanesthetized mice during microscopic observation of blood vessels. Glenn H. Algire. [Plates 64, 65] 865
Vascular reactions of normal and malignant tissues *in vivo*. VI. The role of hypotension in the action of components of podophyllin on transplanted sarcomas. Glenn H. Algire, Frances Y. Legallais, and Belle F. Anderson. [Plates 66–68] 879

Page

Factors influencing tumor distribution among the mammary glands of the mouse. RICHMOND T. PREHN, JOAN M. MAIN, and MARVIN SCHNEIDERMAN. 895

Mammalian chromosomes *in vitro*. IV. Some human neoplasms. T. C. HSU. [Plates 69–76] 905

The effect of purines, nucleosides, and nucleotides on the carcinostatic action of 8-azaguanine. ALFRED GELLHORN, ERICH HIRSCHBERG, and ALICE KELLS. 935

The effect of X irradiation and lowered metabolic rate on the morphogenesis of developing *Melanoplus differentialis* embryos. THEODORE N. TAHMISIAN, JANET V. PASSONNEAU, and DOROTHY M. ADAMSON. [Plates 77, 78] 941

Modification of lethal irradiation injury in mice by injection of homologous or heterologous bone. EGON LORENZ and CHARLES C. CONGDON. [Plates 79, 80] 955

The biological effects and the chemical composition of podophyllin. A review. MARGARET G. KELLY and JONATHAN L. HARTWELL 967

No. 5—APRIL 1954

Virus of avian erythromyeloblastic leukosis. I. Relation of specific plasma particles to the dephosphorylation of adenosine triphosphate. E. B. MOMMAERTS, D. G. SHARP, EDWARD A. ECKERT, DOROTHY BEARD, and J. W. BEARD. [Plate 81] 1011

Virus of avian erythromyeloblastic leukosis. II. Electrophoresis and sedimentation of the plasma particles and the enzyme dephosphorylating adenosine triphosphate. D. G. SHARP, E. B. MOMMAERTS, EDWARD A. ECKERT, DOROTHY BEARD, and J. W. BEARD 1027

Virus of avian erythromyeloblastic leukosis. III. Interrelations of plasma particles, infectivity, and the enzyme dephosphorylating adenosine triphosphate. EDWARD A. ECKERT, E. G. SHARP, E. B. MOMMAERTS, ROBERT H. REEVE, DOROTHY BEARD, and J. W. BEARD 1039

Dose-response relations in experimental transmission of avian erythromyeloblastic leukosis. III. Titration of the virus. EDWARD A. ECKERT, DOROTHY BEARD, and J. W. BEARD 1055

Dose-response relations in experimental transmission of avian erythromyeloblastic leukosis. IV. Strain differences in host-response to the virus. EDWARD A. ECKERT, NELSON F. WATERS, B. R. BURMESTER, DOROTHY BEARD, and J. W. BEARD 1067

The phenol-oxidizing enzyme system of human melanomas; substrate specificity and relationship to copper. DENIS KERTÉSZ 1081

The relative oxygen affinity of human and of vegetal phenoloxidase. DENIS KERTÉSZ 1093

Fractionation studies on the tumor-necrotizing agent from *Serratia marcescens* (Shear's polysaccharide). PAUL RATHGEB and BENGT SYLVÉN 1099

Chemical studies on the tumor-necrotizing agent from *Serratia marcescens* (Shear's polysaccharide). PAUL RATHGEB and BENGT SYLVÉN 1109

Physicochemical characteristics of the tumor-necrotizing agent from *Serratia marcescens* (Shear's polysaccharide). HARRY MALMGREN 1119

Alkaline phosphatase activity during carcinogenesis of mammary tumors in mice implanted with stilbestrol pellets. FLAVIA L. RICHARDSON and BJARNE PEARSON. [Plates 82–84] 1123

Induction of tumors in mice following intrasplenic or intrahepatic transplantation of fetal skin, muscle, or stomach with methylcholanthrene. MICHAEL KLEIN. [Plate 85] 1137

Further observations on the effects of cancer chemotherapeutic agents on the *in vitro* dehydrogenase activity of cancer tissue. MAURICE M. BLACK and FRANCIS D. SPEER 1147

The growth of pure strain L cells in fluid-suspension cultures. WILTON R. EARLE, EDWARD L. SCHILLING, JAY C. BRYANT, and VIRGINIA J. EVANS 1159
